

SIXTEENTH YEAR NO. 8

GLEICHEN; ALBERTA, WEDNESDAY, MAY 10, 1922

Subscription \$2.00 a Year

Regular Board of Trade Meeting

The regular meeting of the Gleichen Board of Trade held Monday night proved quite interesting for the big crowd of members in attendance as well as several visitors from out of town. One of the visitors remarked to the Call the next morning that he was very pleased to have been present and enjoyed the meeting as it lacked the "stiffness" that prevailed in the Calgary Board of Trade and was just as effective and business like.

The executive reported progress on having the C. P. R. Park improved, a report of which appears elsewhere in this issue.

A considerable amount of correspondence was read and acted upon, as well as several accounts submitted being ordered paid.

The executive was instructed to continue the work of endeavoring to keep the Gleichen Agricultural School open, and, although the outlook was not very promising, it is still believed that something can be done when full information is available.

It was reported that a number of citizens had requested the Board to assist in having the road entering the town from the north to the river, stable reopened, which was fenced last year and that a number of citizens interested had offered to grade the road. The Board decided to assist in this matter in every way possible.

A request to have the freight office closed each afternoon from 4:15 to 5:15 was opposed on the ground that at this busy season farmers and others could not afford to lose the time.

Mrs. Shatto and Norton as delegates from the Arrowood L. F. A. in the support of the Board in having a ferry placed on the Bow River nearly opposite where the telephone poles turn north on the river flat station. At present there are farmers across the river who are obliged to travel 15 miles further to cross the bridge than they would if a ferry was provided to reach Glenora. This matter was thoroughly discussed and the delegates assured of the co-operation of the Board in this as well as other matters that would be of benefit to the farmers.

Mr. Norton also requested that during the summer the town provide a watering place for teams, which the Board decided to take up with the town council.

It was reported a small bridge on the Reserve near Cluny was in a dangerous condition and this matter will be taken up with the Department of Agriculture at Edmonton. Angus Goodman offering that his department would loan him a car to take to a park for the use of auto tourists coming to Gleichen as a camping ground.

The flag committee was asked to send a mail an effort to see that a flag was flying on the 24th and an offer was made to supply new flag at cost to any person ordering one.

After much discussion it was determined to investigate and see if the irrigation ditch could not be brought in to turn for use in for use in watering shade trees on the streets of Gleichen.

J. L. Sweeney of the C. R. Forestry Department and Mr. Procter of Calgary and C. S. Sage, a member of the Calgary Board of Trade, all gave addresses in which they availed themselves to say some complimentary things about Gleichen and the Board of Trade.

Your subscription is due.

NO GLEICHEN EXHIBITON

Sat., July 1, Gleichen Sports Day

Warning to Keep All Stock off Fair Grounds

At a meeting of the directors of the Gleichen Agricultural Association, held last Saturday night it was decided that on account of the government cutting down the prizes and restricting educational classes and the lack of interest generally that a fair would not be held this year.

The following letter was read from Alex Galbraith, Superintendent of Fairs and Institutes:

"A committee from the Alberta Fairs Association has at the request of the Minister of Agriculture, prepared a set of rules and a revised prize list for the use of all the agricultural societies of Alberta. This prize list with standard rules will be sent you as soon as it is printed, but to save time I hereby notify you of the following important changes affecting your society and prize list in connection with the forthcoming fair:

"All fairs outside of the A and B circuit are classified as C, D, and E fairs. Yours is in the E class and the following restrictions will apply: the maximum prize money you should offer in any class is \$5. No grant will likely be paid on any of the following classes: mare or property, stallion and get-of-bone, teams, jacks or sheep, general purpose horses under three years old, herds of cattle, pens of mules, goat with litter of pigs and some other classes where prizes are duplicated. Stallions, mares and goats three years old must all be shown in the aged class, there being no special class for 3-year-olds.

"In using your new prize list you will please follow strictly the instructions, and rules that will be sent you from this office in a few days."

President John Proctor stated that it seemed to him that the object was to cut out all the educational part of the prize list and in moving that no fair be held this year.

A frank view indicated that as the fair has always been a financial loss to the Association financially and interests of the community of dropping this year's exhibition, might arouse others to their duty.

It was decided unanimously that the members of the Association get behind the School Fair and do all they could to make it a bigger success than ever.

On account of the late spring it was decided to hold the annual sports day on July 1st instead of May 24th.

The question of stray live stock on the fair ground, as discussed and the secretary instructed to write those down to have stock on the grounds, warning them that they would be prosecuted if the stock was not kept off the fair grounds.

PROVINCIAL NEWS BULLETIN

(Issued by Publicity Commissioner, Government Buildings, Edmonton.)

Farmers and municipalities are endeavoring vigorously in the campaign to combat the grasshoppers and organizations have been effected in many districts. Large supplies of food crops and will assume the part of the agricultural department, and while there are few indications yet of the appearance of the pest, there is every prospect of a determined effort to deal with the grasshoppers when they do appear.

Prof. W. J. Stevens, formerly principal of the Chapin School, and lately of the U.G.C. and the Calgary High School, has taken up his duties in the department of agriculture as commissioner of field crops, and will assume the post formerly occupied by J. D. Smith as superintendent of the seed and weed branch. Mr. Stevens is to give considerable attention to the matter of weed control, and also to the matter of new markets for seed grain and the encouragement of seed grain production in the province.

Landowners in the South Macleod Irrigation District will vote on May 15 on the issue of bonds for \$250,000 to cover cost of construction of the irrigation project. Payment of the bonds of the United Irrigation District for \$600,000 odd, will be made by the provincial irrigation council.

Arrangements are now being made by the Department of Agriculture for the carrying out of the improvements of the new act requiring the licensing of producers, intended in the province. The amendment will be made shortly of the provisions by which this act will be administered and of those who will be required to obtain a license.

The public utilities board of the province referred to nine companies in 1921 the right to sell shares. Most of these were oil companies, and one or two were proposed coal concerns. The nine companies had a proposed total capitalization of eleven million dollars.

"The Great Moment" Opera House Saturday

Director of Gloria Swanson's New Picture Added by Ode Imperial Office

The genuineness of the scenes depicting a Russian ball in "The Great Moment," Gloria Swanson's first Paramount starring picture, and the accuracy of detail, such as in the settings, costumes of the players, and creature were greatly enhanced by the aid of Mitchell Kanoff, an ex-captain of the Imperial Russian army, who provided director Sam Wood much valuable data regarding such an affair, besides loaning several of his military uniforms, trappings and weapons, in which he had seen actual service in Russia and Siberia.

All who see this Paramount picture at the Gleichen Opera House next Saturday night can rest assured that the Russian episodes are perfect and true to life in every detail. Mr. Kanoff has a rather interesting record. When war broke out in 1914, although only then 16 years of age he volunteered and soon afterward began training at a military school. He was commissioned third lieutenant and then afterward he was sent to the trenches and when the Russian revolution broke out, he served in the Royal army against the Bolsheviks as first captain in the province. He was awarded a battery of artillery at Siberia. Coming to America, he served fourteen months in the U. S. Army aviation service. The new picture is an adaptation of

P.K. PARK IMPROVED

BOARD OF TRADE SHOWS 'SWADE' CO-OPERATION

For sometime the Gleichen Board of Trade has been endeavoring to get the C. P. R. to improve their park located south of the station and last week J. L. Sweeney, of the Forestry Department arrived in town to discuss the subject and after he had viewed the park with the executive assistant that might be expected in the way of co-operation. He was informed that anything the Board could do would be done. He then stated that it would hardly be possible to get more trees here in time for this year's planting, but would do as he could.

However, on Monday morning he said, saying he had secured 200 young trees from the company's nursery at Wexley, Sask. and would arrive that afternoon, and attend the regular meeting of the Board in the evening. At the meeting he requested that he be given ten men to assist him. He was surprised to see that every man present found it convenient and volunteered to be on hand.

It was arranged that who could should arrive at his station at 9 next morning and the others at 1 in the afternoon. However, another surprise was due him when he saw 23 men ready with axes and under his able management the 200 trees were planted to his satisfaction by 11:20 that morning—just two hours and twenty minutes, instead of five hours he expected it would take 10 men to accomplish.

Needless to say, Mr. Sweeney left Gleichen well pleased with the people of this town and we must add that this is "quite" different to the way the C.P.R. were treated some years ago in this town. The fact is the people of this town are learning that they should want to help us and we believe that co-operation of this kind will do more towards placing Gleichen on the map than anything else.

Those who assisted in the tree planting were:

Geo. Hunter for L. Webster.
R. M. Stubbach for Stubbach & Brown.
E. W. Taylor.
R. N. Matheson.
C. B. Hyndman.
N. L. Purcell.
T. H. Beach.

Webster Bros., Ltd.

SERVICE!!

OUR INTERPRETATION OF THE WORD

Readers of this and every other paper are constantly confronted with the word service in connection with advertisements.

When the Busy Store says its aim and object is to give service to the people of Gleichen and district it not only means to give its customers the most courteous and prompt treatment and high class merchandise at competitive prices—we go even further than that.

By the credit system we have inaugurated we are able to grant to those of our customers, who are worthy and whose positions are meritorious, sufficient credit to see them through the crisis which we are passing. We say passing because we believe by the middle of July we will experience a wave of enthusiasm such as we have not seen in Western Canada for some years.

We believe that we are one of the few institutions that have adopted a policy of this nature and we are pleased with the result. Our many customers appreciate to the fullest extent this extraordinary service which they are unable to obtain at a great many other stores.

When you compare our service with that of the institution which says you must pay the spot cash before you depart with the goods or the institution which says that thirty days is the extreme limit of time they will grant you, you can readily see which is rendering the service that is essential to the success of the district. When by your system of trading you assist a customer in a financial way and thereby enable him to plant his crop and in some cases make it possible for him to continue in his business of production we think that we have taken as broad a view of the word service as is possible.

We realize that this is a wheat producing district. We know from study and reading that in every wheat producing country in the world, the successful institution is the one which extends credit to the producer. A producer of wheat has to have a large surplus of funds to carry on his business on a cash basis when he receives only one pay a year. This is a fact which most of you know better than we do, having had the actual experience. It is a well known and long established fact that wheat growing and credit go hand in hand.

Let us imagine what Western Canada would have been or what it will be if every commercial institution had so little faith in it that they said you must pay the cash for everything you buy. You must keep your operations within the limit of your bank account. You must not expand beyond your own capital. If all the business houses adopted a cash system the progress of Western Canada would compare favorably with that of the proverbial snail. In fact this applies to the whole world. There is not enough cash in the world to carry on the business. 90 per cent of the business of the world today is done on the credit basis. Therefore, we prefer to be with the 90, instead of the 10.

If our business was on a cash basis we would only have about one-quarter of the number of customers we have. That means our buying power would be reduced 75 per cent and we would have to make our living and profit out of one third of the number that we now have. This brings us to the question of prices. We admit that we do not pay cash for everything we buy but we have been doing business with the same wholesale houses for 11 years and are very well regarded by them and it does not stand to reason that they are going to take a chance on losing business by overcharging us particularly while our volume remains to the high level it is at present.

Concerning our prices on our general line, we think the only fair thing to do is simply ask our steady customers and those which we hope some day will become customers, to compare them with the others. We do not run any specials or trade getters, we try to keep our prices at all times uniform and make each article pay its own fair share to the general maintenance of our business.

Viewing our prices, our way of doing business, the quality of our merchandise and the service we are giving to the ultimate success of the district, we do not hesitate to solicitate your patronage which is appreciated very keenly.

The Busy Store

"Your Money's Worth or Money Back"

THREE DAYS SHOE SALE.

In connection with my new store in Calgary I will hold a Three Days Sale only in Gleichen **MAY 10th 11th and 12th** consisting of **LADIES and GIRLS 1 Strap and 2 Strap OXFORDS and POMPS.**

W. STRACK GLEICHEN

DISTRICT AND LOCAL

As we go to press fire has destroyed the residence of L. Doughtworth. We will give full particulars next week.

Monday morning, a small stone thrown like a bullet from the wheel of a passing car, shattered a large plate glass window in the front of the McKay Hardware Store.

Wm. Strack has opened a branch of his Gleichen store in Calgary and on page eight of this issue announces he will bring down a line of his shoes for sale here on May 10, 11 and 12.

Farmers take notice.—Do not bring your hogs expecting us to buy except on shipping days. Call us up in person. Pioneer Market. Chris Hartshorn, Prop.

J. H. Walls has moved his family from his Gleichen home to Calgary, where they spent the winter. He is now engaged in the implement business at Calgary.

Mrs. Robt. Landels was down from Calgary a couple of days last week looking after her business interests in Gleichen, and stated that she intended to leave this week to spend the summer months in Collingwood, Ont., with relatives and friends.

The first prosecution under the Domestic Animals Act was heard at the town hall on Saturday afternoon, the firsting the offence of and cattle. Mr. T. W. Bates, who heard the case, estimated that the next offender would be severely dealt with.

Miss Fee who has been associated with the staff of the School of Agriculture for the past year has resigned, and will leave for her home in Vancouver on Friday of this week. She was popular not only with the staff and students but has made many close friends among the people of the town, who are sorry to lose her companionship.

The Union Church Ladies Circle are to be congratulated on the wonderful success of the spring sale which was held last Saturday afternoon the proceeds being \$175. The tables were full of well made and attractive dresses, aprons, etc., which rapidly disappeared after the sale opened at 1 o'clock. The home cooking table was as well filled and well patronized as were also the tea tables. The Circle wishes to thank all those who contributed so generously to the success of the sale.

One destructive person has mutilated the signs placed by the Board of Trade by the main street and east of Gleichen and the work is evidently not that of mischievous boys. Both signs have had the word scrawled in making the board read: "Don't come again," and on the east one someone has used a knife to scratch the sign. It is a pity the guilty party could not be discovered and given the full penalty of the law, for such low class work—better still might be a number eight planted a few swift times where evidently his grey matter has centered.

UNION CHURCH

The ladies circle will meet on Thursday, May 11th, at 8 p.m. in Mrs. Riddle's home.

The board of managers will meet Wednesday evening, May 11th at 8 o'clock.

The Gleichen Beavers of the Union S.S. will hold their 2nd sale of work and home cooking on Saturday, May 20th, at 2 p.m. in George Matthews' store.

Next Sunday, May 15th, Mothers Day will be observed at Little Mother Sunday School and evening service.

Morning solo: "Little Mother O'Mine."

Evening, duet: "My Mother's Blessing."

Anthem: "Mother is Never to Weary to Smile."

Subject: "Mother's Claim."

The Sunday School will observe Mother's Day Emblems for the school.

FOR SALE.—At bargain. Registered Dairy Jersey cow, brown and white, excellent milker. Price \$25. Cash, \$10.00, balance included. R. J. Gordon, Box 1, Edmonton.

Mrs. Riste left this week to join her husband, who has leased a farm near Oida.

On Friday afternoon, Mr. and Mrs. John McEwan left for their home in Medicine Hat. Mr. and Mrs. McEwan, who are now retiring from active life, have been associated with Gleichen for the past eighteen years. We will miss them but hope they will enjoy life in the capital.

BIG EGG COMPETITION

The suggestion of Mr. Bollinger's some weeks ago for a big egg competition has been held over for various reasons, but evidently will be come popular. Below are those actually sent in and we hope the many who claim to have big eggs will send them in at once, as the list will be published and added to as received. Drop into the Call office and see the eggs for yourself.

A. W. Batty, Riddle Island Road, weight 3 1/2 oz., around 6 1/4 inches, and 8 inches long.

M. Bollinger, Plymouth Rock, weight 3 1/2 oz., around 6 1/4 inches and 7 1/4 inches long.

W. Sanders, Riddle Island Road, weight 3 1/2 oz., around 6 1/4 inches, and 7 1/4 inches long.

P. Kelley, Lashburn, weight 3 1/2 oz., around 5 1/2 inches and 6 1/2 inches long.

Mrs. J. T. Stuary, weight 3 1/2 oz., around 6 1/4 inches and 7 1/4 inches long.

Geo. Moser, brought in three eggs all laid the same day, which have not been weighed but they all measure 6 1/4 inches around and one is 7 1/4 inches long and the other two 7 1/4 inches around and 7 1/4 inches long.

One of A. W. Batty's 12 Red eggs measures 8 inches in circumference longitudinally, 6 1/4 inches around and weighs 3 1/2 oz., according to our popular young postmaster, Mr. Batty says the hen that laid this egg is no high priced imported, being of local breeding, and had no electric lights turned on at 3 a.m. to enable her to see what she had done. This is an egg to be proud of, but we will leave the crowing to the rooster.

Every Monday—G. W. V. A. Whist Drive. All are welcome.

First Monday in each month the
